TYPE 1 DIABETES CHILD or FAMILY

2022 DANII Jelly Bean CAMP

~ T1D Camp for the whole family ~

#daniisgift

6 Days/5 Nights Lake Macquarie, NSW ~ 18th April 2022

Respite ~ Educating Type 1 ~ Support Network ~ Expand T1D Network ~ Learn from the Experts

Sponsor Ty1D & Carer \$1500 *1A1C/A or \$3000 per family *2A2C

Sponsor a child or adult and their carer or Sponsor a family of 4 to join our next Jelly Bean Educational Camp at CRU Resort & Conference Centre on beautiful Lake Macquarie. You will be gifting someone who lives with a disease that requires 24/7 management who will thank you for the rest of their lives. They will learn more about the Intense Management of Type ONE diabetes in a relaxed family FUN environment. Type ONE diabetes is not caused by poor diet or lack of exercise, it's an auto-immune disease where the pancreas no longer works. Once Diagnosed with Type 1 diabetes, life changes enormously for the person and their entire family as they learn to measure carbohydrates, balance it with exercise & calculate insulin dose injections that are required with every meal.

The program is vitally important for both children and adults who live with Type 1 Diabetes to learn the latest intensive management skills that are often too complicated to comprehend in their short visits with their diabetes specialists. Our DANII Foundation professional team led by leading Endocrinologist Dr Sultan Linjawi present interactive workshops in support fields covering psychology, nutrition, life-skills and diabetes education. Delegates learn more about how to manage this challenging disease and the programme provides a unique opportunity to build a Type 1 diabetes support network by educating family & carers and be able to connect with others just like themselves.

This unique and holistic education programme aims to increase the quality of life for all those affected beyond the event. Over 6 day's delegates learn about the latest technology available in managing Type 1 Diabetes and have access to representatives from diabetes technology companies and professionals in a relaxed environment that is critical for learning.

Jelly Bean Camp Education provides an opportunity for families, who are often isolated & alone to come together with other families and provide support to each other during and beyond the cruise. Our DANII Expert team are with our delegates all the way.

Children and young adolescence type ONE and type NONE get the opportunity to be included in all workshops as it has been designed with a holistic approach. Often people with Type 1 diabetes are sitting on sidelines at sporting fixtures or at home which can lead to other social issues. The Camp also gives families respite and recreation in an environment where their children are safe.

Past Attendee Testimonials

"The cruise exceeded my expectations. The workshops were wonderful, educational and empowering"

Peter & Jade

"Invaluable. Information was available about new technology & things that would help that you wouldn't get anywhere else"

Rach & Mon

"What the DANII Foundation has done is really great. We learnt things we didn't know"

Anne & Tay

Fundraise locally or within your organisation for a type ONE diabetic or a family to join DANII friends and be educated in intense management of their diabetes, and receive much needed respite. Your sponsorship donation will help a needy T1D family greatly to avoid burnout.

Conference and workshop times are designed to give delegates ample freedom aboard so T1D information is more easily digested from our educational & interactive seminars, thus giving them more time to experiment with changes in a T1D's routine aboard ship. Our itinerary stops in three Papua New Guinea islands, a great opportunity to learn about the local cultures, how to snorkel or to walk-off all the yummy food served on-board.

Jelly Bean Camp fares include participation in all diabetes specific workshops (both adult & child education), all meals including conference morning & afternoon tea's, special onboard activities, onboard entertainment as well as our ValuePlus Ty1D networking activities. Learn about the latest technology available to manage diabetes from our DANII Medical Team experts & even trial CGM whilst you are on-board.

Sponsor a family and change their life today!
