

We invite CORPORATE PARTNERS to help us improve 140,000 Australian lives of kids, teens and adults who live with type ONE diabetes and donate an item to Auction at the 2022 DANII Foundation's Jelly Bean Ball

~ PLEASE HELP ~ AUCTION WISH LIST ~

On **Saturday 18th June**, the **DANII Foundation** is hosting our 10th Annual Major Fundraiser "**Jelly Bean Ball**" at the **Hyatt Regency Sydney**. The Jelly Bean Ball has become one of Sydney's most prestigious events in support of DIABETES. Hosted by our Celebrity Emcee ~ Rod Kafer, and supported by a host of premium surprise entertainers including the Australian Girls Choir. **This event is an important fundraiser that supports the Australian Diabetes Community in delivering a better quality of life funding life-saving Continuous Glucose Monitoring (CGM) alert-technology for Adults and Children who struggle to manage this life-long disease. DANII Foundation also provides much needed Support Education to this community. Funds raised from the Jelly Bean Ball also contribute to the foundations work in advocacy & education in schools together with the wider public ~ type ONE Diabetes – the fastest growing disease in Australia ~ with NO CURE in sight. Take a closer look at our achievements in just 9 years [HERE](#) ~ CGM saves Lives, and would have saved the life of Danii Meads-Barlow!**

Could you or your family donate an item to auction or help us source an item? "Save a T1D life TODAY"

All items will be beautifully displayed on the night and will feature in a full-colour catalogue. *Value Proposal:* Your business will be listed for 12 months on the [DANII website](#) as an Event Partner and community supporter, with a hyperlink to your website. Additionally, your company with logo will be featured in our Jelly Bean Ball event booklet, in our social media reach to over 210,000 and on the big screens on the night of the event. Our audience high profile, professional & corporate. Your generosity will be rewarded with helping aid a member of our Diabetic community with life-saving alert device & education.

DIABETES – THE FACTS

Type 1 diabetes is the fastest growing chronic disease in Australian children. There are 140,000+ Australians with type 1 diabetes and with six new cases every day Australia has one of the highest rates in the world. The number of Australian children being diagnosed with this disease is increasing by 6% every year. Typically striking young people, type 1 diabetes destroys the ability to produce insulin, which is vital for life. It requires an essential daily regime of multiple injections or continuous infusion of insulin through a pump, as well as 6 to 12 finger-prick blood tests. Type 1 diabetes is associated with a significantly increased risk of serious health complications. An autoimmune disease, type 1 diabetes is thought to be caused by a complex mixture of genetic and environmental factors but not by an unhealthy diet or obesity. The number of Australians diagnosed with diabetes is expected to grow to 3.5 million by 2033.
